MEMORANDUM FOR: Deputy Director of Plans for Policy
Directorate of Plans, DCS/P&P
Headquarters USAF

ATTENTION : AFXPD-PY-CWC (TB)

SUBJECT : Supply Requisitions Submitted by [REDACTED]

REFERENCE : Memorandum from USAF, dated 19 February 1962
(TBSNS-167-62) Subject as above

1. Your reply on the reference subject was reviewed and duly noted. The initial meeting on this subject, which was attended by representatives of AFXPD, USAF Comptroller, Agency Comptroller, and members of the Materiel Staff this Headquarters, was both beneficial and informative. The meeting was conducted in an atmosphere of rapport and understanding in a true endeavor to obtain material results and a clearer understanding of the primary problem of flying hour costs.

2. Discussions at this meeting revolved around the flying hour rate and the procedures utilized for ordering of parts for the flyaway or mobility kits. The scope of this subject is large and in some instances varied due to the Agency operational commitments world-wide. As a result of the wide scope and required coverage for a subject so broad, a full resolution to the problem was not achieved as far as the Agency is concerned. In the meeting it was determined that further study should possibly be given to the matter of flyaway kits as divorced from the flying hour rate costs.

3. It is therefore recommended that future meetings be held on specific subjects relative to flyaway kits and flying hour costs. It is further recommended that an agenda be outlined and agreed upon prior to the meeting in order to obtain the most beneficial results. Providing these recommendations are agreeable to your office, this Headquarters will be most happy to submit an agenda for the review of AFXPD prior to future meetings.
